

Connect to the performance

Kubala·Sosna  
RESEARCH LLC

## WE ARE NOW AN INTERNATIONAL COMPANY!

Howard and I have felt blessed from the very beginning of our company. Reactions to our products and our business plan were pretty much universal in the USA.

Now, four years later, as we open up to the international markets, we are re-living those marvelous feelings all over again! The "war stories" are repeating themselves as I listen to the comments and impressions of first time listeners again ... What a feeling!

We have distribution for the following countries: Belgium, Bosnia, Canada, Croatia, Denmark, Finland, France, Herzgov-

ina, Hungary, Indonesia, Luxembourg, Macedonia, Malaysia, Montenegro, Netherlands, New Zealand, Norway, Phillipines, Poland, Serbia, Slovenia, Spain, Sweden, Switzerland, Taiwan, and the United Kingdom.

Additionally, we are in discussion with others in Germany, Greece, Italy, Singapore, South Africa, South Korea, Thailand and Turkey. All this in six months!!

Now you know why we feel so blessed. People are just as excited about us everywhere we go! Now we get to do some (more) traveling!!

## CONNECTING TO THE PERFORMANCE!

Last issue, we mentioned the first official review of our products (Emotion IC) in January. That was followed up by Emotion Speaker Cables in February; the Emotion ensemble in March; and the Fascination ensemble in April. An Emotion Power Cord review should appear in August.

We are very pleased with the comments contained in them,

as they agree with what we have been saying about the cables from the beginning. Nice to know others hear things the same way.

As an example, Emotion is such a strong performer that people were focused on it - but we have FIVE lines, not one!. In the Fascination Review (Inner Ear Magazine) Danny Kaey points out that

Kubala-Sosna Emotion PC on the cover!!  
Thank you Bing!!

Sorry If we missed you in Munich ... see you in Milan??

Fascination truly is "Emotion-like" in many ways.

We have a great lineup - Strong at every price point; having the same family sound in every series, with every performance characteristic improving as you move up the lines.

We think that is unique, We hope you see it that way too!!

## OUR SHOW SCHEDULE

CEDIA (at T.H.E. Show) Denver, Sept 6-9  
TOP Show Milan, Sept 13-16 (attending)  
Rocky Mountain Audio Fest Denver, Oct 11-14
