## NEWS FROM AROUND THE GLOBE

Kubala-Sosna cables are being shown in trade shows around the globe! As mentioned in the last newsletter, our products are now available in about 40 countries!

Our distributors are using our cables in their exhibit rooms far and wide. In the last few months, K-S has been in shows in Indonesia, Taiwan, Phillipines, Slovenia, Croatia, Netherlands, Canada, CEDIA, RMAF and Milan (Italy).

I attended the show in Milano and as in Munich, was very impressed by the professionalism of

the organizers, as well as the fun attitude that was shared by all.

We displayed in a room that included Kharma 3.2.2 speakers, Grandinote integrated amplifier, Lindemann CD player and a SOTA turntable.

There are upcoming shows in Norway, Thailand, and CES in Las Vegas. We will have our own room (30-327) at the Venetian, as well as cabling up rooms for BAT/Scaena, Lamm/Wilson, Gershman/Lamm, Pathos, Aesthetix, Talon/VAC. More to come.

Kubala-Sosna / BAT / Volent at VAD '07 (Netherlands)

## CONNECTING TO THE (Premier) PERFORMANCE!

Kubala-Sosna / Tenor / Kharma at RMAF '07 in Denver

I have mentioned before that Howard and I feel blessed at the things that have happened for us in the five years we have been at this. We were talking the other

day, and marveled at how many "firsts" we have been part of in rooms we have cabled at shows.

An introduction of a new product is a very important thing for a manufacturer, as you only get one chance to make a first impression! Since CES'04 here is a list of manufacturers who used our cables at a show in which a new product was premiered:

Audio Aero, AudioPax, B.A.T., Chord, Eggleston, Grandinote, Grand Prix Audio, Kharma, McIntosh Labs, NuForce, Rogue, SMC Audio, Sound Fusion, Tenor,

VAC, Vivid Loudspeakers, Volent, YGER, Wadia, & Wilson-Benesch.

To that impressive list, we will be adding World Premiers by Lamm and NeoDio at CES'08! Lamm will introduce their new statement product, the ML-3 Signature SET monoblock amplifiers! The room (V34-309) will feature Wilson Speakers, Zanden Transport/DAC, TW-Acoustic TT. NeoDio will introduce their Transport and DAC in room V30-310 along with Gershman, Lamm, RedPoint, and Critical Mass Systems.

We thank you for the confidence!
